### About compatibility

1. Old models (having Model Name without "N") cannot be connected to new models (with "N") and vice versa because the connector shape is different.
2. The customers having ZM500 Main Units, ZM540DU and/or Communication Units, CU-xx, are requested to use them without mixing them up with the new models (with "N").

### Appearance Comparison

#### A. ZM500 Series Main Units

#### B. ZM-540DUx

#### C. Communication Units. CU-xx Series

The connector is the same as that of ZM-540DUN.
